WORK EXPERIENCE

Software Engineer (11/22 – Present)

Biz2credit|Biz2x   -- *Noida, India*

Working as a MEAN stack developer for a US based Lending project.

Senior System Engineer (07/22 – 11/22)

Infosys Pvt. Ltd.   -- *Bengaluru, India*

Developed web Apps using Angular, Typescript for front-end web development.

Mentored freshers and co-workers.

System Engineer (04/21 – 07/22)

Infosys Pvt. Ltd.   -- *Bengaluru, India*

Worked with HTML, CSS, Angular, Typescript for front end web development.

Worked with MySQL, Druid and Java for backend development.

System Engineer Trainee (11/20 – 03/21)

Infosys Pvt. Ltd.   -- *Bengaluru, India*

Learnings: It was a great journey during which I was trained to be a full stack developer (Java + Angular). I learnt many in demand technologies and created a fully working networking application (both frontend and backend) with my team as a team leader.

PROJECTS

Biz2x Pro

(11/2022 – Present)

Working as a MEAN Stack Developer for a US based lending project which facilitates customers to apply for required loans and communicate with bankers. It also enables the banker to process the loan application, making it move to different stages for loan acceptance.

Developed tabs and dashboards with forms PDFs and E-sign functionalities.

British Telecommunication Internal Project

(04/2021 – 11/2022)

Developed Dashboards with various reports and charts.

Implemented reports using AG-grid and charts using High charts library.

Gesture to Speech Convertor Glove

(08/2019 – 10/2019)

A device that converts hand gestures to voice outputs.

Used flex sensors with potential divider arrangements to generate different voice outputs.

Secure Home Automation System

(06/2018 – 08/2018)

Bluetooth controlled home automation system used to remotely home appliances.

Loads can be turned ON/OFF remotely using mobile application.
